Selectmen's Report For 1967

To The Inhabitants of the Town of Kittery:

At the first Selectmen's meeting held after the 1967 Town Meeting, the Board elected Member Frank Kauffman as chairman of the Sewer Committee and also as official representative of the Board of Selectmen to confer and plan with First Naval District officials, Whitman & Howard project engineers, Bonding Company counsel and Federal and State agencies, as necessary, to carry out the Water Pollution Control Program for the Town of Kittery.

During the month of March 1967 and until the middle of April 1967, the Board of Selectmen made Fort Foster available to the project director of the University of New Hampshire. A letter from Dr. Robert Corell expressed appreciation for the use of the pier explaining that it greatly helped in meeting their responsibilities in oceanographic experiments.

Again this year Kittery has been active in the York County Regional Planning Commission. Our Planning Advisor, Mr. Frederick Perry, and Planning Board Chairman, Mr. Kenneth Smith, kept the Board of Selectmen informed on municipal planning as related to Housing and Urban Development programs and their requirements for communities in York County.

Town Manager Lancaster, Kenneth Smith, and Daniel Seaward have been representing the Town of Kittery in the forming of the Southern Maine Development Commission which includes the towns of Kittery, York, Eliot, Berwick, South Berwick, North Berwick, and Lebanon.

From March and until November when the Board of Selectmen vacated their office for the Town Council, the Board met regularly with Town Committees, Port Authority, Public Works Department, Kittery and Kittery Point Fire chiefs and the Police Chief.

The members of the last Board of Selectmen for the Town of Kittery wish at this time to express their appreciation to all committees and Department Heads for their support and cooperation which aided in the betterment of our town.

Respectfully,

EDWARD FREMEAU

FRANK R. KAUFFMAN

ZACHARIAS KAGILIERY

JOSEPH LANGTON

BURGESS DORR

**REPORT OF
TOWN MANAGER**

**LETTER OF TRANSMITTAL TO
THE CITIZENS OF KITTERY:**

Submitted herewith is the annual report of the activities of the various departments for the year ending December 31, 1967.

Several new programs were initiated in 1967 which will add to the efficiency and economy of our town government and a saving to the taxpayer. We have modernized our bookkeeping system, initiated a capital improvement and work program for our Public Works Department, and conducted in-service training for other town employees.

With the adoption of the new Council-Manager charter in November of 1967, the inhabitants of the Town of Kittery have made a very important decision, and as a result, they will be rewarded by all of the modern techniques of good government.

I wish to take this opportunity to express my appreciation to all of the town officials, employees and citizens for their cooperation, support and assistance that I have received since being your Town Manager.

Respectfully submitted,

CECIL O. LANCASTER

Town Manager

Certificate of Audit

February 21, 1968

Kittery Town Council

Kittery, Maine

Gentlemen:

In accordance with your request, we have audited the records of the Town of Kittery for the municipal year ended December 31, 1967 as required by Title 30, Section 5253, of the Revised Statutes of 1964.

This examination was made in accordance with generally accepted auditing standards that pertain to governmental accounting and included all procedures which were considered necessary in the circumstances. Within the scope of the examination, the financial affairs of the town appear to have been administered in a proper and efficient manner.

The results of the audit are disclosed in the exhibits and schedules embodied in this report, and fairly present the financial position of the Town of Kittery, and the results of its operation for the municipal year ended Dec. 31, 1967.

Respectfully submitted,
L. Everett Outhouse,
Auditor

The complete Post Audit Report for the year ending December 31, 1967 is on file at the Municipal Office.

COMMENTS

CASH BALANCE:

The cash balance, as noted in the Balance Sheet, was reconciled, and a written confirmation of the balance was made with the bank.

UNCOLLECTED TAXES AND LIENS:

Unpaid taxes and tax liens at December 31, 1967, were verified by written confirmation, to the extent deemed necessary at the time of audit.

GENERAL:

The procedure for keeping the municipal records of the Clerk-Treasurer and Tax Collector was examined, and found to be adequate, and in compliance with the General Laws of the State of Maine.

The Selectmen's records are kept by a double entry method of bookkeeping, and a trial balance is taken regularly. Detailed records are kept of all accounts to support the balance as shown on the trial balance.

SCOPE OF AUDIT:

This audit was made as required by the State Department of Audit, Chapter 405, Section 26, of the General Laws of 1957.

Records were checked to determine the accuracy of recording cash transactions. The system of internal control was reviewed as to the handling of cash and other matters of financial concern. External verifications, on a test basis, were utilized to determine the correctness of recorded Assets and Liabilities.

Receipts, vouchers and cancelled checks were examined for a selected period. Bond and insurance coverages were examined. Excise tax collections, for a selected period, were verified with copies of the receipts retained by the tax collector. The Trust Fund and Savings Accounts were physically verified.

Various laws relating to the administration of the fiscal affairs of the municipality were reviewed to determine that the financial transactions had been properly administered.

Treasurer's Report

To the Citizens of the Town of Kittery:

I herewith submit my annual report for the year ending December 31, 1967.

REPORT OF KITTERY POLICE DEPARTMENT**ACTIVITIES FOR 1967**

To the Citizens of the Town of Kittery:

Once again it is my privilege to report the activities of the Kittery Police Department for the year ending December 31, 1967. As I start my third year as Chief, I am doing it full of enthusiasm with better service in mind.

We had a very busy year in 1967 and we are expecting more of the same for 1968. We will continue to patrol the roads 24 hours a day with two cruisers on call at all times and with two men on duty 24 hours a day.

The following is the list of our activities for 1967:

Miles traveled on patrol and other police activities	62,494
Hours of actual patrolling	7,189
Accidents investigated	262
Hours spent on accident investigation	166½
Court Cases	327
Moving violations	203
Non-moving violations	69
Liquor Laws	4
Drunkeness	8
Disorderly conduct	4
All other offenses	7
Driving while intoxicated	7
Robbery	2
Assault	2
Sex offense	2
Possessing stolen property	1
Dog complaints	16
Auto theft	2

I wish to thank Chief Kenneth O'Sullivan and Chief George Varney, Jr. of the Kittery and Kittery Point Fire Departments for their fine cooperation and assistance to the Police Department; also Kenneth Emery, foreman of the Highway Department, and the many other private citizens that have given their time to make this a better department.

In conclusion, may I say thanks.

Allen Tucker
Chief of Police
Kittery, Maine

REPORT OF THE FIRE DEPARTMENTS

To the Citizens of the Town of Kittery:

The Kittery Point Fire Department enjoyed a relatively calm year, having to answer only 25 alarms for fire. We also had two resuscitation calls, one request for the boat, and ten miscellaneous requests requiring the use of Department equipment for brush burning, cellar pumping, and hauling water.

The Kittery Fire Department had the following calls:

Total Alarms	81
Out of town calls	7
Portsmouth	4
South Berwick	2
Naval Base	1
Rescue calls	
Resuscitator	2
Boat	3

The Departments wish to take this opportunity to thank the dispatchers in the Central Office and the Police and Highway Departments for their excellent cooperation this past year.

Respectfully submitted:

GEORGE VARNEY, JR.
Chief, Kittery Point Dept.

KENNETH O'SULLIVAN
Chief, Kittery Dept.

**ANNUAL REPORT OF
KITTERY RECREATION ASSOCIATION, INC.**

To the Citizens of Kittery:

The association has completed its seventh year of offering swimming instruction to the children and adults of Kittery. This past summer 375 young people were enrolled in the swimming classes and lifesaving classes. Twenty-two adults also took advantage of the instruction offered in the evening.

With the completion of seven years operation of the swimming pool, we are now faced with problems of wear and deterioration of equipment. This summer it will be necessary to replace the sump-pump, stockings for the filter system, and new parts for the machinery. We have contacted the United Fund but unfortunately were turned down. We have again contacted the Fund and hope for better luck this time. Because it cost more than we received last year to keep the pool operating, in spite of all the volunteer help, we have requested an additional \$200 from the town toward this years' expense.

The skating area at the American Legion Field at Admiralty Village was not used this year because by the time the ground was frozen enough to hold water, the snow had arrived. We wish to thank the Kittery Lions Club for their donation to cover the cost of lighting the area and the Young Four H group for clearing the site. We shall use the remaining money from the Lions Club for lighting the skating area next winter.

The association wishes to thank Martha Power who was our instructor for the past two summers and Cathy Martin, her assistant, who will be our instructor this coming summer. The association is presently seeking an assistant for the swimming pool; preferably someone with a senior lifesaving certificate.

Respectfully submitted,

Robert Johnson, president	Onil Roy
Vera Shaw	William Hurley
Victor Meteyer	Roger Raymond
Jeannette Mitchell	Cassie Lutts
Fred Soucy	L. Charles Chase
Frances Lamont	Real Caron
Richard Thompson	

REPORT OF THE KITTERY PORT AUTHORITY

To the Citizens of Kittery:

1967 saw an increase of boating activity in both Pepperrell Cove and the Back Channel over the previous year and all projections point to a continuing increase in the use of the Town's facilities. During the year the public toilet facility was completed at the Town Pier at Kittery Point and the Town Pier at Kittery Foreside was rebuilt so that it is now safe for use by the Public Works Department and the general public.

Since float space at Pepperrell Cove is still at a premium a new float is being constructed to be placed beside the small float running back along the side of the Pier from the steel float at the end of the Pier. It is also contemplated to make the hoist on the Pier safer by installing a brake and safety chain. And since many people use the inside face of the stone Pier at Pepperrell Cove to careen their boats for tidal repairs or inspection it is planned to sink some timbers in the mud to form a level platform.

At the Kittery Foreside Pier the Port Authority is trying to see how some provision can be made for landing small boats as well as installing a safety railing.

An updated edition of the Rules and Regulations for the use of the Harbor is being printed and will be available for the boating season.

The Chauncey Creek Dredging Project is still active and negotiations are now underway for a Public Landing Site on the Project Area which is required by the Congressional Act making the Project possible. It is hoped that it will soon be possible to fulfill this requirement so that the Project may proceed to completion.

The Public subscription funds for the Chauncey Creek Project are still in the hands of the Trustee and continue to draw interest.

The Port Authority would like to thank the people of the Town for their help and interest during the year and hope that more of our citizens will make use of the Harbor facilities during the coming season.

W. L. Turner, Chairman	E. F. Hoyt
F. C. Frisbee, Vice Chairman	D. W. Marvin
R. S. Moulton, Secretary	K. Smith, Planning Board

REPORT OF
THE KITTERY PUBLIC HEALTH ASSOCIATION
FOR 1967

Total visits for the year	3231
For bedside care and treatment	2338
No. of medicare cases	47
No. of patients under 65	119
Visits to medicare patients	1936
Visits to under 65 patients	402
Ave. no. of visits to Medicare cases	41
Ave. no. of visits to under 65 cases	3½
Well child clinics held	10
Children attending	310
Polio vaccine given	105
Triple toxoid given	144
Measles vaccine	77
Smallpox vaccinations	58
Tine test for tuberculosis	5
Physical examinations	38

Officers of the Board of Directors were:

President	Mrs. Reuban Wood
Vice President	Mrs. Alexander Farley
Rec. Secretary	Mrs. Robert Eaton
Cor. Secretary	Mrs. Herman Bunker
Treasurer	Mr. Alfred Sterling

This year was one of many changes, because of Medicare. More than eighty three percent of our cases came under benefits of the over sixty five Medicare Act. This made for greatly increased amount of paper work and time spent in the office. Therefore it was necessary to hire an extra part time nurse.

As an accredited Medicare Agency we are able to give, if ordered by the family physician, one hundred free visits to a patient after at least three days in the hospital. Those with no prior hospitalization will, after the first \$50. deductible is paid, receive one hundred visits with eighty percent of the cost paid by medicare.

The services of the Public Health Nurses are always administered under orders of the family physician. Anyone, regardless of financial status, living in Kittery or Kittery Point is eligible for home visits for bedside nurs-

ing and treatment, of any type administered by Registered Nurses. We give instructions to family as to care, also advice to new mothers in care and feeding of infants. We make visits, without charge, to any family needing State sponsored clinic appointments for mental or physical disorders. It is also our duty to check cases of tuberculosis or venereal disease and their contacts to help prevent the spread of these diseases.

Well child clinics are held in the Nurses Office, at 1A Government Street, on the third Wednesday of each month except July and August. These clinics are for children from infancy to schoolage. Thomas S. Conroy, M. D., of Portsmouth, is our attending physician. Each child may receive a free physical examination and all of the available immunizations at cost of the vaccine only. This is a clinic for well children so please do not bring children who are acutely ill with colds or running a fever. We must protect the well child and prevent the spread of contagious diseases. Volunteer workers for these clinics were: Mrs. Muriel Eaton, Mrs. Hazel Allen, Mrs. Barbara Moulton, Mrs. Gertrude Wood, Mrs. Hazel Bunker and Mrs. Olive Leavitt.

During the Holiday season we acted as clearing house for all those wishing to give to our needy families. The Kittery Lions Club donated \$400.00 for the purchase of warm clothing for the children. This was purchased and tagged by Mrs. Barbara Moulton, then gift wrapped and delivered by members of the Lions Club. They also sponsored a Christmas party to which twenty four underprivileged children, between the ages of five and twelve years, were invited. The American Legion Auxiliary made donations totaling \$205.00 toward the purchase of food at Thanksgiving and Christmas. Other organizations contributing food, money, toys or gifts were; Students of Traip Academy, Sunday Schools of the Methodist and Christian Churches, Brownie Troop 407, Thursday night Guild, Mothers Club, Past Noble Grands Association, Piscataqua Chap. No. 90 O. E. S., Past Matrons of the same, Doorkeepers Club, Womens Fellowship, Womens Guild, Cub Pack No. 316, Mrs. Gross's Room 101 of the Frisbee School, Wildes Estate Trustees, Disciplinary Barracks at the Shipyard and several individuals.

A total of thirty four families at Thanksgiving and thirty six at Christmas received complete dinners. Seventy two children received new and good used toys, new

clothing and wrapped gifts. Each of the mothers and elderly couples were given small wrapped gifts.

Volunteer workers, without whose help this program would not have been possible, were; Sorting and packing of toys, Mrs. Muriel Eaton, Mrs. Barbara Moulton and Mrs. Hazel Allen; packing dinners at Thanksgiving and Christmas, Mrs. Eaton, Mrs. Allen, Mrs. Moulton, Robert Eaton and Mrs. Ruth Wyatt; gift wrapping, Mrs. Gertrude Wood and Mrs. Avis Tarling. Through courtesy of the Public Works Dept. a truck and two men were made available to help with delivery of toys and dinners.

Services of the Nurses are available Monday through Friday from 8 A. M. to 5 P. M. Only emergency calls are taken on weekends and holidays. Call either the Nurses office, Tel. 439-0776 or Kittery Pharmacy Tel. 439-0607.

On behalf of the Board of Directors, Mrs. Frances Orr R. N. and myself, I would like to express appreciation to all that have helped in any way to advance the work of the Public Health Association.

Respectfully submitted,

Esther H. Linscott R. N.

REPORT OF THE KITTERY PLANNING BOARD

for the Period February 1967 through March 1968

Town Council
Kittery, Maine

Gentlemen:

Since our last report (see 1967 Kittery Annual Town Report, pp. 70-73), the Planning Board has continued to advance toward the goals established therein. Briefly restated, these were:

- (1) Revival of a Capital Improvement Program;
- (2) Prosecution of a Town Office/Municipal Building Study;
- (3) Completion of the Recreational Study and a beginning toward implementation of its recommendations;
- (4) Reexamination of the feasibility of an Urban Renewal Program.

Our progress in these and other areas is as follows:

Capital Improvement Program

This is currently being progressed for submission to the Council by late summer.

Town Office/Municipal Building Study

Space requirements of various users (i.e. Town Clerk, Town Manager, Public Health Nurse, Assessor, etc.) have been surveyed and tentatively determined. Preliminary rough layouts for the building are currently under preparation by the Board.

Recreational Study

Study is complete and has been published under the title, "Kittery Comprehensive Plan — Recreation," dated November 1966. This 110-page report came off the press in early May 1967 and since that time copies have been, and are now, available at the Town Office or upon request to the Planning Board. During the month of May 1967 copies were sent or delivered by the Board to:

Traip Academy
Rice Public Library
Tri-County Osteopathic Hospital
Kittery Chamber of Commerce
Kittery Lions Club
Kittery League of Women Voters

Kittery Representative to State Legislature (Mr. Dennett)

Kittery Recreation Association

Kittery Port Authority

Maine Information Center

York County Regional Planning Commission

The Planning Board is currently engaged in attempting to arrange meetings with the Maine State Planning Office, Maine State Highway Commission, and other State Departments for the purpose of discussions on the "Spruce Creek/Gateway to Maine Park" portion of the Recreation Report.

Urban Renewal and Community Improvement

Current Planning Board investigations have not revealed any areas of town which would clearly qualify for any significant Urban Renewal projects at present. However, it would appear that certain areas will qualify in the not-far-distant future unless current trends were to be reversed.

For this, and other desirable reasons, the Planning Board has decided to commence working toward developing the basic requirements of a so-called "Workable Program." This program is a prerequisite to Federal participation in a Community Improvement Program involving Urban Renewal and Housing for Displaced Families, among other aspects. Accordingly, the Planning Board is now engaged in the development of the basic codes necessary to a "Workable Program." Work on proposals for a Building Code and an Electrical Code are well advanced as of this writing.

Zoning

Several amendments to the Zoning ordinance were proposed, and approved by Town Meeting action in 1966 and 1967, including:

Extension of Local Business Zoning on Government Street and Shapleigh Road.

Extension of Highway Business Zoning on Routes 1 and 236.

A new ordinance section on Development Requirements for Camper Parks.

Certain improvements in administrative procedures.

The above changes, among others, have been incorporated into a revised text and updated Zoning Map and

published as "Town of Kittery, Maine, Zoning Ordinance, Revision 1 of April 1967." Copies of the Revision One ordinance came off the press in December 1967 and are available at the Town Office or upon request to the Planning Board.

Industrial Development

Preparations have been going forward during the past approximately six months toward the establishment of a 7-town development association with delegates from the Berwicks, Eliot*, Kittery, Lebanon, and York. Appointed delegates from Kittery are Daniel Seaward, Cecil Lancaster (Town Manager) and Kenneth Smith (Chairman, Planning Board). It is expected that formal organization of this group will be completed within the next 2 to 3 months and work commenced on individual town inventories. The goal of this organization will be to foster economic development of the general area encompassed by the named towns.

Note: * Has not participated to date.

In the course of routine operations the Planning Board has:

Reviewed and approved one sizeable new sub-division development located off Haley Road. This subdivision, development of which is currently underway, promises to be a credit to the town.

Responded to Selectmen/Council requests for information and recommendations on acceptance of various roads under the Streets and Ways Ordinance and other Planning problems.

Worked with the Port Authority in connection with the resolution of problems involved in the proposed Chauncey Creek Dredging Project.

In prosecuting the above-noted work the Planning Board has held regular twice-monthly meetings throughout 1967 and has been, we feel, meaningfully and rather busily involved in working toward the best interests of Kittery, present and future. A few of the new projects which we plan to commence work on during the current year are:

Review and updating of the Subdivision Ordinance.
Plumbing code.

Housing code.

Traffic and parking study of downtown Kittery.

Our progress in the above areas, as well as in those in which work is currently under way, will be governed by the amount of time and effort that individual Planning Board members are able to contribute to these projects.

As always, willing and effective manpower is expected to be the element in shortest supply. The Board is most desirous of enlisting the aid and support of interested citizens who are willing to accept appointment to the Planning Board and devote some substantial amount of their time and effort toward the goal of effective planning for Kittery, making it an even better place in which to live and work.

Kenneth A. Smith, Chairman
 Kenneth L. Langton, Secretary
 James H. Tarling
 George F. Millett
 William H. Dorrity
 Chandler B. Cobb, Associate
 Edward E. Shapleigh, Associate

REPORT OF THE HEALTH OFFICER

Town Council
 Kittery, Maine

I herewith submit my annual report as Health Officer for the Town of Kittery for the year 1967.

All sanitary conditions reported were investigated and remedied.

Many school slips for all conditions were made out without cost to patients.

The following contagious diseases were reported, as follows:

Mumps	4
Measles	4
German measles	36
Chicken Fox	59
Strep throat	12
Scarlet Fever	1
Tonsilitis	5
Whooping Cough	7
Impetigo	7
Pneumonia	3

Respectfully submitted,
 C. W. Kinghorn, M. D.
 Health Officer

**SECOND AND FINAL ANNUAL REPORT OF THE
KITTERY TOWN COUNCIL MANAGER CHARTER
COMMISSION**

Kittery's Town Council Manager Charter was adopted by voters on Oct. 10 by a vote of 683 to 306; election of officers took place Nov. 7, and the new council and school committee took office Nov. 21 and 20 respectively, thus terminating this commission's charge.

During the past year, following eight months of intensive study and work after appointment in April 1966, the commission's activities were as follows:

Jan. 23, 1967—Public hearing attended by about 120 citizens after which proposals and suggestions were considered and some amendments made to the charter. That same week, Rep. Dennett submitted the charter, without amendments, to the Maine Legislature.

March 19—The selectmen endorsed the amended charter and authorized Frank R. Kauffman to report their endorsement to the state's Legal Affairs Committee at a public hearing in Augusta on March 23.

March 20—Public meeting on the charter, as amended, with 22 people in attendance. Further amendments were made at that time.

March 23—The commission's entire membership and Mr. Kauffman attended the public hearing in Augusta where the Legal Affairs Committee chairman called it a "pretty fine charter", and later the committee marked it "ought to pass" and sent it to the two houses.

May 20—Rep. Dennett reported that Governor Kenneth M. Curtis signed the charter into law (pending local voters' approval) on April 14.

Because the legislature held a record long session in 1967, adjourning after June 30, it was necessary to have the charter amended so the local referendum could be held at a date later than that specified in the charter. This amendment was part of a corrective omnibus bill introduced at the end of the legislative session with the assistance of the governor and an aide and Rep. Dennett.

The amended charter was signed by the Governor early in July and the commission set dates for further action to promulgate the charter.

Sept. 27—Public hearing with 35 in attendance to discuss the final bill in advance of the local referendum.

Since very few copies of the charter were made available to the town, the commission mimeographed 500 copies of the original bill presented to the legislature, and had 500 copies of the amended bill printed later, making them available each time to citizens at public hearings and at the Town Hall.

Richard S. Childs, "father of the council-manager plan" in America, called Kittery's charter "well drawn" and expressed great interest in it. Newspaper articles explaining the charter were printed by three papers early in January; each public hearing and event was publicized as work progressed; and on Oct. 6, 7, and 9 a series of three articles on the charter, written by a commission member and endorsed by the entire membership, were printed in The Portsmouth Herald.

After the successful passage of the charter, 19 candidates ran for the seven seats on the council and seven ran for the five seats on the school committee.

The commission feels the success of the charter was due, in part, to timeliness; partly to developments in the past decade toward governmental reorganization; and greatly to the good will, spirit and confidence of the citizens in our town.

Edward Fremeau, chairman
Robert W. Young
Charles K. Rodis
Raymond G. Pettigrew
John A. Howarth
Rita A. Perry

REPORT OF THE PARK COMMISSION

Town Council
Kittery, Maine

Gentlemen:

It is the pleasure of the Park Commission to submit the following report for the year 1967:

MEMORIAL FIELD

Efforts have continued over the past year to improve the condition of Memorial Field. The back-stop was painted and it is planned to paint a section of the fence this year.

Storage space is still a problem at the field and will be until an addition is built on the Field House.

Appropriation permitting, it is intended to loam and reseed the center section of the football field this year.

FORT FOSTER PARK

Patronage was down somewhat during the past season due to the bad weather. Six additional picnic tables were purchased and installed. About one acre of unsafe land adjoining the picnic area was filled and graded. It is planned to regrade additional area this year.

ROGERS PARK

As previously agreed between this Commission and the Selectmen, no further work has been accomplished at Rogers Park.

SEA POINT BEACH

The entire beach was bulldozed prior to Memorial Day and in excellent condition at the start of the season. A bad spring storm then ruined all the work and it was necessary to re-bulldoze the beach a second time. A full time attendant was employed at the beach during the summer for the first time and it was possible to keep the beach clean for the entire season. It is planned to continue this service during the forthcoming season.

Respectfully submitted,
Leon French, Jr.
Kenneth Clement
William Morris
George Eldridge

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Citizens of Kittery:

1967 might well be characterized as a year of transition. The Kittery School system which for years has been sending its high school students to Traip Academy has become a system with its own secondary school. Traip Academy and the rest of the system are now parts of the whole. This has set the stage for more intimate operation, fiscally, administratively, and educationally.

The net results of this step will not be realized for some time, but as the policies of the parts are reconciled and the programs are more closely coordinated into a unit, a more meaningful educational program for our young people should result.

As a positive step in the direction of more effective coordination of the educational program from elementary through high school, the School Committee has assigned Carl W. Wood, formerly Supervisor of grades K through 8, to work with the staff at Traip Academy in developing a well articulated program for Kittery's schools from Grades K through 12. This will involve much thought, patience, and working together of not only the academic staff personnel but the guidance people and the administrative people. It is a major task in any school system. This is indicated by the fact that few systems have attempted the job, but where it has been done the results are favorable.

Almost simultaneously with this move to a unified school system, the Town of Kittery adopted a charter which provided for a five member school committee. With the election of the new Committee, Dr. Paul Taylor, a long time trustee of Traip Academy, became one of its members thus helping to provide valuable carry-over from the Academy to the Kittery School System.

Kittery is most fortunate to have had a Federal Government grant of \$31,000. assigned to it for the operation of a marine biology program under the title of RAMP or Regional Area Marine Program. The operation which was

to have originally begun on July 1, 1967 will open as of January 1, 1968 under the direction of Sebastian Cultrera. A laboratory, classroom, and office will be located in the Austin School building which is located quite ideally for easy access to the marine environment that is to be studied.

The purpose of the project is to develop instructional materials for the teaching of marine biology in Grades 6 through 11. These materials will be available not only to Kittery but for the use of other schools. A six weeks summer session is being planned for a limited number of high school students who have had one year of laboratory biology with satisfactory grades. Tuition will be free, and one high school Carnegie unit may be earned.

It is possible that a day camp type of course will be operated concurrently for the upper elementary grades.

The RAMP program promises to be very valuable to all students whether they are college bound or gaining know how for a job in one of the many activities connected with harvesting the ocean's resources of food and for other purposes.

Both the girls and the boys now have an opportunity to participate in the physical education program of the Junior High, now that we have a teacher for the girls. This gives a greater opportunity for our young people to share in the national program for physical fitness. Most appropriately Health Education will now be taught together with its practical application in the physical education program rather than in the science courses where it has been.

A great need which is constantly making itself more evident is for a positive program of sex education. Fortunately this is being recognized in more and more communities of Maine. Such a program needs the strong support of parents through parent organizations and individually. The school can be the vehicle but parents must show that they want the program.

The new school at Kittery Point is still awaiting final official acceptance due to a few technicalities. These mat-

ters are in the hands of our architect who is giving it adequate attention.

Provision was made in the Kittery Point building for noon lunch preparation and storage, but development there is pending while a study is under way to consolidate our four separate lunch operations under a single management. The facility at Kittery Point will fit into the final plan. Some funds are still available for its development.

Respectfully submitted,

Jasper F. Crouse

Acting Superintendent

ASSESSOR'S NOTICE

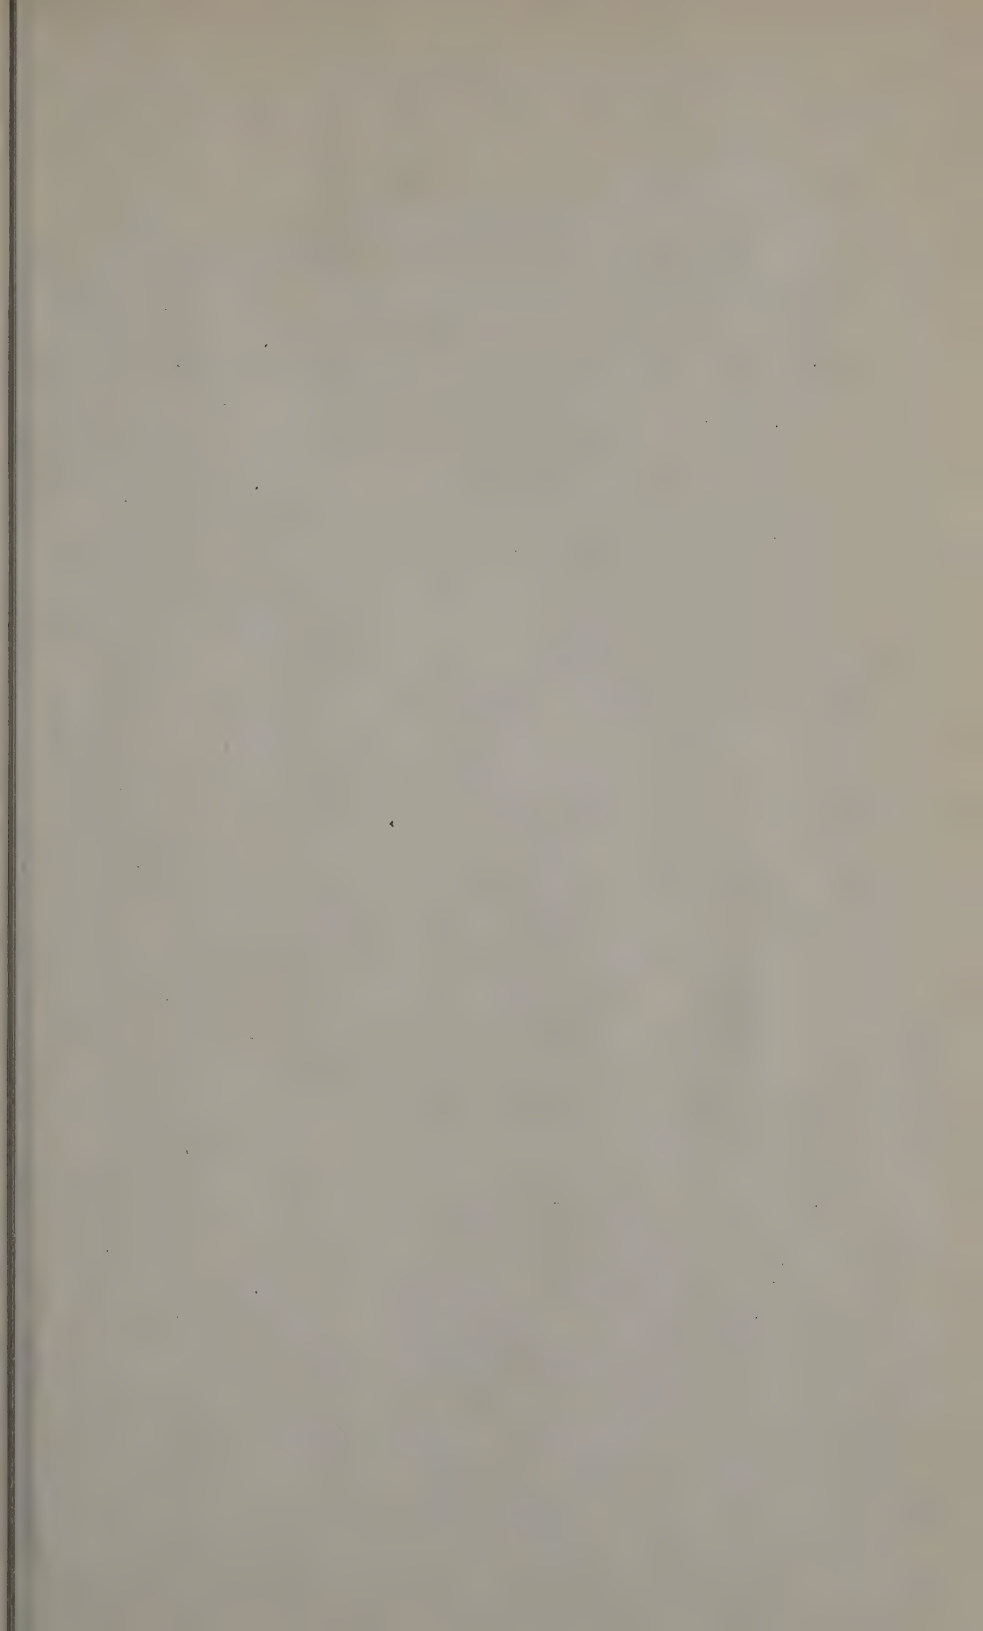

The Assessor of the Municipality of Kittery hereby gives notice to the inhabitants of said Municipality that he will be in his office in the Town Hall in said Municipality on April 2, 3, 4, 9, 10, 11 and 16, 17 and 18 from the hours of 9:30 a. m. to 12:00 noon and from 2:00 p. m. to 4:30 p. m. for the purpose of receiving lists of the polls and estates taxable in said Municipality.

All such persons are hereby notified to make and bring to said Assessor true and perfect lists of their polls and all their estates, real and personal, not by law exempt from taxation, which they were possessed of, or which they held as guardian, executor, administrator, trustee or otherwise of the first day of April, 1968, and be prepared to make oath to the truth of the same.

When estates of persons deceased have been divided during the past year, or have changed hands from any cause, the executor, administrator, or other persons interested, are hereby warned to give notice of such change, and in default of such notice will be held under the law to pay the tax assessed although such estate has been wholly distributed and paid over.

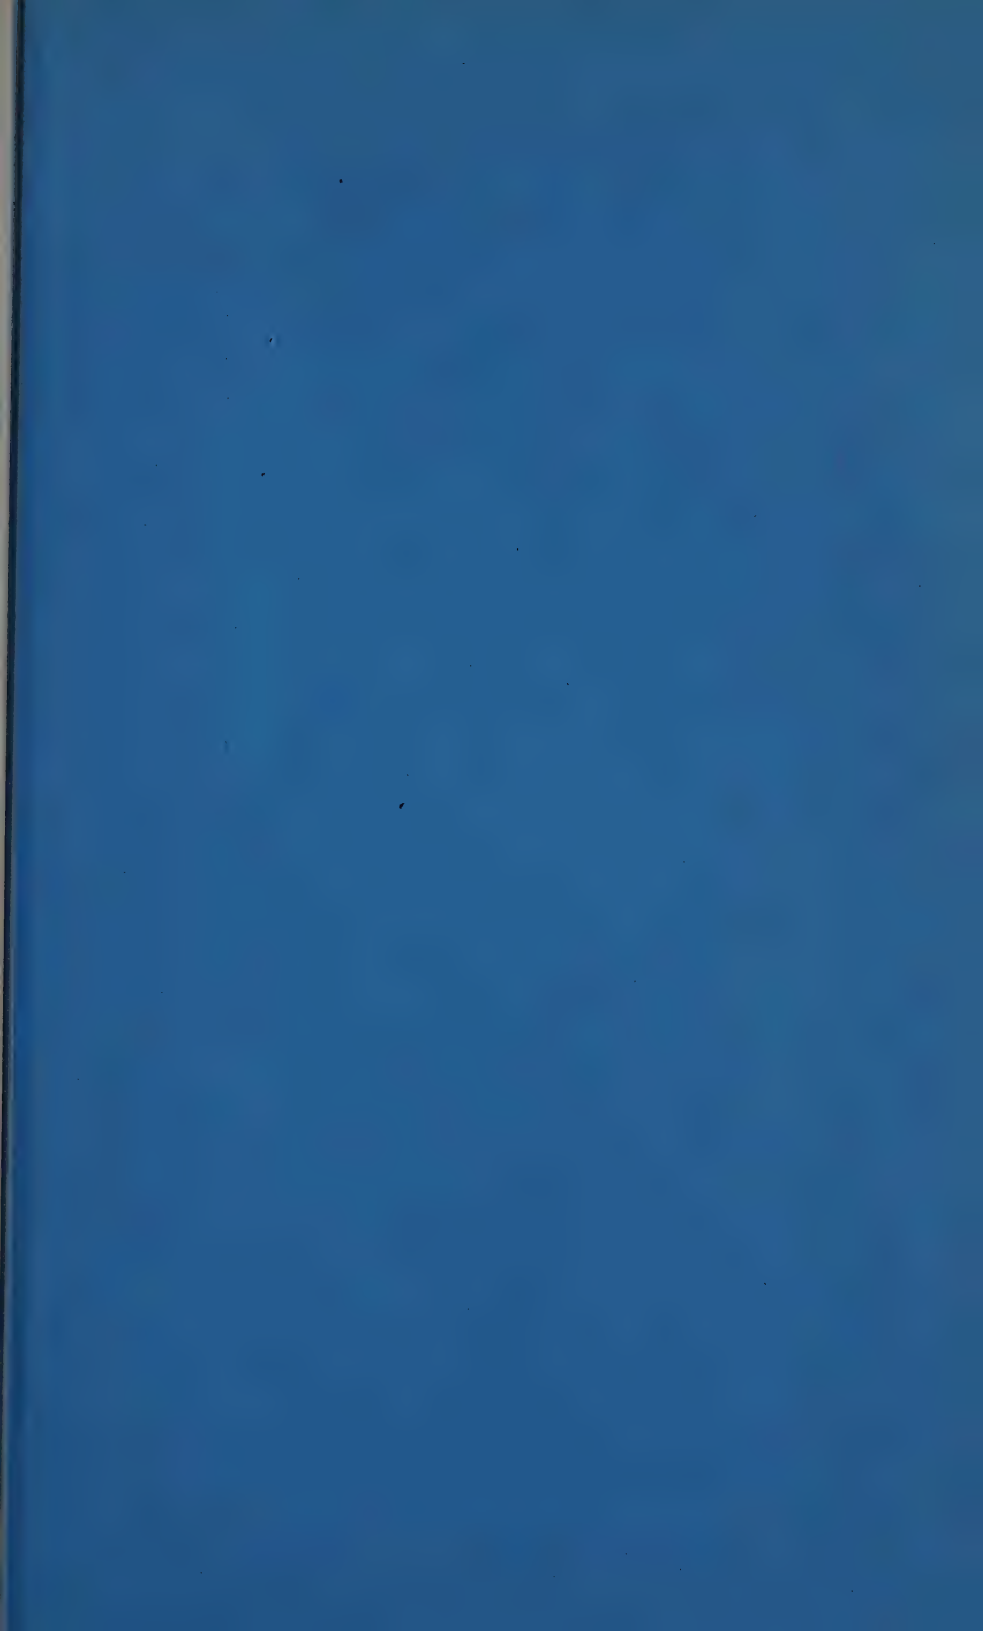

* Any person who neglects to comply with this notice will be DOOMED to a tax according to the laws of the State, and be barred of the right to make application to the Assessor or Board of Assessment Review for any abatement of his taxes, unless he offers such lists with his application and satisfies them that he was unable to offer it at the time hereby appointed.

Howard E. King
Assessor,
Town of Kittery

REPORT OF TOWN MANAGER

The town embarked upon several new programs in 1968. These included the hiring of our first full-time assessor and a full-time mechanic to maintain and service all town-owned equipment, the appointment of an Economic Development Commission, the adoption of a dog leash and control ordinance, the beginning of Phase I of our sewer system, and a drive to eliminate unsightly and dilapidated buildings in the town.

In October, as the result of an application submitted by the League of Women Voters, its president, Mrs. Arthur Lutts, was notified that Kittery had been selected as one of 22 finalists in the All-America Cities Award Contest. After considerable planning and several work sessions attended by interested citizens of the town, a delegation consisting of Mrs. Lutts, Kenneth Smith, Frank Kauffman and I were chosen to represent the Town of Kittery in New Orleans on December 2-3rd. The total cost for the preparation of the display, printing of brochures, shipping, and trip expenses, was approximately \$1650, of which \$1178 was received from donations. Mrs. Lutts made an excellent presentation before the Awards jury; and on April 26, 1969, Senator Edmund S. Muskie presented town officials with a citation of Honorable Mention as an All-American town at a ceremony held at the Governor's Mansion in Augusta.

I wish to conclude this report by stressing that in my opinion we are not moving fast enough to stay ahead of our municipal problems. The year 1968 should serve as an indicator year of what we can expect in the future.

The level of cooperation and dedication of all town employees, department heads, members of Boards and Commissions, and the Town Council has been outstanding. The have worked long and hard to solve the everyday problems and to meet the challenge of future growth. My position is made easier by this dedication and it is appreciated.

Respectfully submitted,
CECIL O. LANCASTER
Town Manager.

Certificate of Audit

March 3, 1969

Town Council

Town of Kittery

Kittery, Maine

Gentlemen:

In accordance with your request, we have audited the records of the Town of Kittery for the municipal year ended December 31, 1968, as required by Title 30, Section 5253 of the Revised Statutes of 1964.

This examination was made in accordance with generally accepted auditing standards that pertain to governmental accounting and included all procedures which were considered necessary in the circumstances. Within the scope of the examination, the financial affairs of the town appear to have been administered in a proper and efficient manner.

The results of the audit are disclosed in the exhibits and schedules embodied in this report, and fairly present the financial position of the Town of Kittery, and the results of its operation for the municipal year ended December 31, 1968.

Respectfully submitted,
S/ L. Everett Outhouse
Auditor

COMMENTS

CASH BALANCE

The cash balance, as noted in the Balance Sheet, was reconciled and a written confirmation of the balance was made with the bank.

UNCOLLECTED TAXES AND LIENS

Unpaid taxes and tax liens at December 31, 1968, were verified by written confirmation, to the extent deemed necessary at the time of audit.

GENERAL

The procedure for keeping the municipal records of the Clerk-Treasurer and Tax Collector was examined, and found to be adequate, and in compliance with the General Laws of the State of Maine.

The Selectmen's records are kept by a double entry method of bookkeeping, and a trial balance is taken regularly. Detailed records are kept of all accounts to support the balance as shown on the trial balance.

SCOPE OF AUDIT

This audit was made as required by the State Department of Audit, Chapter 405, Section 26, of the General Laws of 1957.

Records were checked to determine the accuracy of recording cash transactions. The system of internal control was reviewed as to the handling of cash and other matters of financial concern. External verifications, on a test basis, were utilized to determine the correctness of recorded Assets and Liabilities.

Receipts, vouchers and cancelled checks were examined for a selected period. Bond and insurance coverages were examined. Excise tax collections, for a selected period, were verified with copies of the receipts retained by the tax collector. The Trust Fund and Savings Accounts were physically verified.

Various laws relating to the administration of the fiscal affairs of the municipality were reviewed to determine that the financial transactions had been properly administered.

REPORT OF KITTERY POLICE DEPARTMENT

To the Citizens of the Town of Kittery:

In the absence of Chief Allen Tucker, it is my privilege to report the activities of the Kittery Police Department for the year ending December 31, 1968. Your Police Department had a very busy year and we are expecting more activity during 1969. We are currently patrolling the streets of Kittery 24 hours a day with two cruisers on call at all times.

I wish to thank the Fire Departments and the Public Works Department for their assistance to the Kittery Police Department during the past year, and I also wish to thank all the citizens of the Town of Kittery for their cooperation with the department.

The following is the list of our activities for 1968:

Miles traveled on patrol and other police activities	71,429
Hours of actual patrolling	9,059
Accidents investigated	245
Complaints and investigations	1,147
Escorts	707
Commitments	10
Special details	130
Fire calls (KFD-95; KPFD 32)	127
Assistance calls	211
Messages delivered	98
Missing persons reported	62
Doors found open	115
Warning cards issued	541
Parking tickets issued	367
Hours of Square duty	794
Hours of traffic duty	618
Number of court cases	406
Arrests	237
Summonses	384
Lost dogs	24

Respectfully submitted,
ALVAH L. BEAL
Acting Police Chief

REPORT OF THE FIRE DEPARTMENTS

To the Citizens of the Town of Kittery:

This past year the Kittery Point Fire Department answered a total of 30 alarms, one out-of-town call, one resuscitation call, two false alarms, and four assists to Kittery. The Department also responded to numerous requests for assistance in pumping cellars, burning brush, etc..

The Kittery Fire Department had the following calls:

Total Alarms	106
Out of town calls	5
Portsmouth	3
Eliot	2

We would like to call attention to the fact that a permit should be obtained before any outside burning is done and any outside incinerator is supposed to be approved before using.

The Departments would like to take this opportunity once again to thank Police and Highway Departments and the Central Office Dispatchers for their cooperation this past year.

Respectfully submitted,
GEORGE VARNEY, JR.
Chief, Kittery Point Dept.

KENNETH O'SULLIVAN
Chief, Kittery Dept.

ANNUAL REPORT OF THE

KITTERY RECREATION ASSOCIATION, INC.

Plans were made at the Kittery Recreation Association's Annual Meeting to have a professional caulking job done on the pool, which is now eight years old. A new chlorinator will also be ordered. Volunteers will be needed this spring to get the pool ready for the summer program because, as you know, that is the way the association is able to keep the request for funds from the town down to \$1300 a year.

310 young people were enrolled last summer in the free swimming classes and 25 took advantage of the junior and senior lifesaving instruction offered.

The skating area at the American Legion Field at Admiralty Village was not used this year for only one reason—it was impossible to find any volunteers to help Victor Meteyer and Richard Thompson ready the skating area and keep it up during the winter. It is hoped by appealing to the residents of the Village next fall that volunteers will be found to put a fine recreation area to use for the children.

Mrs. Norman Shaw, who has been treasurer of the association since it started, has resigned and Mrs. Earle Cobb will take her place. However, Mrs. Shaw will continue on the board of directors because of her continued interest in the program. Cathy Martin will continue this year as instructor and Tonda Weaver as her assistant.

Our second contact with the Seacoast United Fund was no more successful than the first, and the association will continue to rely on the funds from the town, volunteer help and contributions.

Respectfully submitted,

Cassie Lutts, President
Vera Shaw
Victor Meteyer
Robert Johnson
Charles Rodis
Frederick Soucy
William Hurley
Roger Raymond

Richard Thompson
Frances Lamont
Onil Roy
L. Charles Chase
David Marvin
Jean Alvord
Dorothy Waddington

REPORT OF
THE KITTERY PORT AUTHORITY

To the Citizens of Kittery:

During 1968 the use of the town's waterfront facilities saw a continuing growth in the use by the general public.

To meet this demand the float facilities at the Town pier at Pepperrell Cove were enlarged and new parking facilities were made available across Pepperrell Road.

The new toilet facility has worked out well with the maintenance cost being minimal for its use.

The Port Authority had the sad duty of recommending that the Chauncey Creek Dredging Project be dropped by the Town due to the greatly increased cost of the project and landing site which the Town was required to provide.

We are attempting to enlarge facilities throughout the Town's waterfront to accommodate the ever-increasing numbers of people using our harbor and to regulate the use of these facilities for the maximum benefit to the Town.

Wilbur L. Turner, Chairman
Frank C. Frisbee, Vice Chairman
Ralph S. Moulton, Secretary

REPORT OF THE

KITTERY PUBLIC HEALTH ASSOCIATION FOR 1968

Total visits for the year	3082
For bedside care and treatment	2319
No. of Medicare cases	47
No. of patients under 65	108
Visits to Medicare patients	1823
Visits to patients under 65	496
Well child clinics held	10
Children attending	306
Polio vaccine given	162
Triple toxoid given	182
Measles vaccine	40
Smallpox vaccinations	30
Tine test for tuberculosis	29
Physical examinations	43

Officers of the Board of Directors were—

President	Mrs. Reuban Wood
Vice President	Mrs. Glenwood Allen
Rec. Secretary	Mrs. Robert Eaton
Cor. Secretary	Mrs. Herman Bunker
Treasurer	Mr. Alfred Sterling

This year we have had an increase in the number of seriously ill bed patients being cared for in the home. Our hospitals and nursing homes have been overcrowded, therefore patients have been sent home as soon as possible. They have received the best possible care that time has permitted. Patients families have been taught to give care between the nurses visits.

As an accredited Medicare Agency we are able to give, if ordered by the family physician, one hundred free visits to a patient after three days in the hospital. Those with no prior hospitalization will, after the \$50.00 deductible is paid to either the doctor or us, receive one hundred visits with eighty percent of the cost paid by Medicare.

The services of the Public Health Nurses are administered under orders of the family physician. Anyone regardless of financial status, living in Kittery or Kittery Point is eligible for home visits for bedside nursing and treatment, of any type administered by Registered Pro-

Professional Nurses. We make visits without charge, to any family needing State sponsored clinic appointments for mental or physical disorders. It is also our duty to check cases of tuberculosis or venereal disease and their contacts to help prevent the spread of these contagious diseases.

Well child clinics are held in the Nurse's Office, at 1A Government Street, on the third Wednesday of each month except July and August. These clinics are for children from infancy to schoolage. Thomas S. Conroy, M. D. of Portsmouth is our attending physician. Each child may receive a free physical examination and all of the available immunization at the cost of the vaccine only. This is a clinic for well children so please do not bring children who are acutely ill with colds or running a fever. We must protect the well child and prevent the spread of contagious diseases. Volunteer workers for these clinics were—Mrs. Muriel Eaton, Mrs. Gertrude Wood, Mrs. Barbara Moulton, Mrs. Hazel Allen, Mrs. Hazel Bunker and Mrs. Avis Tarling.

During the Holiday season we acted as clearing house for all those wishing to give to our needy families. The Kittery Lions Club donated \$500.00 for the purchase of warm clothing for the children. This was purchased and tagged by Mrs. Earbara Moulton, then gift wrapped and delivered by members of the Lions Club. They also sponsored a Christmas party to which twenty five under privileged children, between the ages of 5 and 12 years, were invited. Other organizations donating food, money, toys or gifts were: American Legion Auxiliary, Altar Society of St. Raphaels Church, Womens Guild and Sunday School of St. Marks Methodist Church, Doorkeepers Club and Sunday School of Second Christian Church, Kittery Grange No. 395, Girl Scout Troops 392 and 395 and New Troop of Kittery Point, Students of Traip Academy, Grades six, seven and eight of Frisbee School, Shapleigh Cub Scouts No. 316, Riverside Womens Club, Piscataqua Chap. No. 90 O. E. S., Ladies Auxiliary VFW, Constitution Lodge Knights of Pythians, Past Noble Grand of York Rebekah Lodge, Ladies Social Circle, and the Wildes Estate.

A total of thirty one families at Thanksgiving and thirty six at Christmas received complete dinners. All the children received new and used toys, new clothing and

wrapped gifts. Each of the mothers and elderly couples were given small wrapped gifts.

Volunteer workers, without whose help this program would not have been possible were: Twenty girl scouts under the direction of Mrs. Irving Whitney and Mrs. Clayton Edwards, Mrs. Barbara Moulton, Mrs. Gertrude Wood, Mrs. Muriel Eaton, Mrs. Hazel Allen and Mrs. Ruth Wyatt. Through the courtesy of the Public Works Dept., a truck and two men were made available to help with delivery of toys and dinners.

I would like to pay tribute to the memory of Mrs. Dorothy Farley who passed away in February of 1968. She was a very active member of our Official Board for nearly twenty five years. She was a past president and secretary and at the time of her death was vice president.

Services of the nurses are available Monday through Friday from 8 A. M. to 5 P. M. Only emergency calls are taken on weekends and holidays. Call either the Nurses office, Tel. 439-0776 or the Kittery Pharmacy 439-0607.

On behalf of the Board of Directors, Mrs. Frances Orr R. N. and myself I would like to express appreciation to all that have helped to advance the work of the Kittery Public Health Association.

Respectfully submitted,

ESTHER H. LINSOTT, R. N.

**REPORT OF THE KITTERY PLANNING BOARD FOR
THE PERIOD MARCH 1968 THROUGH MARCH 1969**

Town Council

Kittery, Maine

Gentlemen:

In accordance with the policy of providing continuity to the annual reports of the Planning Board, thus providing a yardstick with which to measure progress, I should like to establish the following references for the sake of brevity in the remainder of this report:

Reference (a) Report of Kittery Planning Board, page 70, 1967, Annual Report, Town of Kittery, Maine

(b) Report of Kittery Planning Board, page 67, 1968 Annual Report, Town of Kittery, Maine

Review of references (a) and (b) will reveal that certain planning goals were set by reference (a) while reference (b) reported progress toward these goals as well as adding several new ones. This current report will continue, in the same vein, to report progress on original and interim goals.

Status of the projects and/or programs contained in reference (b) is updated as follows:

CAPITAL IMPROVEMENT PROGRAM

A comprehensive five-year Capital Improvement Program, addressing over 30 major items, was submitted to the Manager/Council on 12 November 1968. It is interesting to note that the program indicates the need for an annual allocation in the vicinity of \$300,000 if all necessary future requirements are to be properly planned and provided for.

TOWN OFFICE/MUNICIPAL BUILDING STUDY

This preliminary study has been completed and tentative floor plan sketches and recommendations forwarded to the Kittery Town Council on 27 May 1968. Any further progress on this item will be contingent on response from the Council.

RECREATIONAL STUDY

As reported in reference (b), this study was completed, compiled in book form, and distributed in 1967. Efforts during 1968 have been directed toward discussions of pertinent aspects of the report with the School Department, the intended goal being that of arranging cooperative implementing action between the Planning and School Departments in appropriate areas. Certain of the study's recommendations are also built into the Capital Improvement Program. One of the principal recommendations of this study was the "Gateway to Maine" concept. During 1968 the Chairman of the Planning Board has invested much time in calling the State's attention to this proposal. Presentations have been made to the York County Regional Planning Commission, Governor Kenneth M. Curtis, Lawrence Stuart (Commissioner of State Parks and Recreation) and various other State agencies. Governor Curtis and many others at the State level have indicated strong support for the concept. Due to current national economic conditions, only time can now determine the final outcome of this attempt to provide open space for future generations of Kittery citizens, as well as an excellent opportunity to enhance State of Maine tourism (now approximately 20% of the economic base) while at the same time enlarging Kittery's own economic base through the proposed supporting commercial areas, etc. It has been made amply clear in all presentations that no Town of Kittery funds would be involved in this project.

WORKABLE PROGRAM

Reference (b) added this goal to our overall planning when it reported on the Planning Board's investigations in the area of Urban Renewal. During 1968 a significant amount of the Board's effort has been devoted toward a start in this area as follows:

BUILDING CODE

A proposed Building Code and Adoptive Ordinance were developed and forwarded to the Kittery Town Council on 19 November 1968. Further action, if any, is the responsibility of the Council.

ELECTRICAL CODE

Work on a proposed Electrical Code is estimated to be 90% complete. A temporary moratorium has had

to be invoked on finishing this code because of heavy personal commitments on the part of the Board member to which the project is assigned.

PLUMBING CODE

Some preliminary work has been accomplished. Copies of State Code have been procured for study, etc.

INDUSTRIAL DEVELOPMENT

The Southern Maine Development (7 towns) Commission mentioned in reference (b) was formally organized and officers elected in April 1968. However, to date, this organization has, for practical purposes, been defunct since its inception. Therefore, it has become more essential than ever that Kittery take positive steps for its own self-interest in this area. Resulting from a series of requests, over a period in excess of 3 years, from the Chairman of the Planning Board to the Manager/Selectmen/Council, a Kittery Economic Development Commission (EDC) has been established. The first meeting of the EDC was held on 17 March 1969 with the Town Manager and Chairman of the Planning Board. We hope for much meaningful and business-like progress toward an industrial park from the Commission during the next year.

MISCELLANEOUS

The Planning Board has conducted its routine business during the regularly scheduled two meetings per month on a year-round basis. The following are some of the areas dealt with:

PORT AUTHORITY

The Board has continued to work with the Port Authority. (The Chairman of the Planning Board is a member of the Port Authority by State Statute.) Among items demanding considerable attention was the resolution of the Chauncey Creek Dredging Project which finally had to be dropped for lack of a suitable public access site which was a firm requirement of the Army engineers.

TRAFFIC AND PARKING STUDY — DOWNTOWN KITTERY

The Board has completed this initial study. We have requested and received detailed circulation recommendations from the Engineering Division of the State Highway Commission. Recommendations on this and off-street parking were submitted to the Manager/Council in October 1968. Further action, if any, is the responsibility of the Council.

CONCLUSION

There are still several areas needing planning attention. These have been documented and discussed with the Manager/Council by the Chairman of this Board and need not be re-documented here. Suffice it to say that leadership must be taken by the Council in several areas.

It would seem inappropriate to conclude this report without at least passing mention of the All American Cities Competition in which Kittery was selected to be a participant. As you know, Kittery was not a winner while such places as Jacksonville, Florida, Savannah, Georgia and Fairbanks, Alaska were. Against such competition it is no dishonor to have come in second best. In fact, to have been selected to compete is recognition of the fact that Kittery's citizens can become involved and that forward-looking planning is being accomplished here.

As stressed in references (a) and (b), enlistment of effective manpower on the Planning Board is still a critical and limiting factor. The amount of thought and effort required to show substantial progress is very considerable. As always constructive thought, help and criticism on the part of the citizens of Kittery is not only welcome and solicited, but is a necessary ingredient in accomplishment of the best planning for our town. It's known as "involvement."

KENNETH A. SMITH, Chairman
KENNETH L. LANGTON, Sec'y
CHANDLER B. COBB
WILLIAM H. DORRITY
GEORGE F. MILLETT

REPORT OF THE PARK COMMISSION

To the Citizens of Kittery:

It is the pleasure of the Park Commission to submit the following report for the year 1968:

MEMORIAL FIELD

Efforts have continued over the past year to improve the condition of the field. In addition to normal maintenance, mowing, fertilizing, and irrigating, immediately after the conclusion of the football season, the entire center section of the football field was regraded, additional loam added and the area reseeded. During the winter months extensive modifications have been made to the interior of the field house to provide much needed improved facilities. Storage space remains a problem at the field. An addition to the field house has been programmed for construction in 1969, appropriation permitting.

FORT FOSTER PARK

Patronage reached an all-time high during 1968, both in season passes issued to local taxpayers and in non-resident daily admissions. Facilities were taxed to capacity on most weekends. Due to this increased usage, a program of expansion has been started. Additional space in the center of the picnic area has been graded and seeded. Construction of a new road leading to the beach area east of the wharf is nearly complete. Negotiations have been started with the State whereby it is hoped that through a joint participation program the wharf may be rebuilt.

The development of a gravel walk along the entire sea front is planned for 1969 as well as additional playground equipment and picnic facilities. During the winter, in a joint participation effort with the York County Community Action Program, a ten-foot swath has been cleared through the brush around the entire boundary of this property.

SEA POINT BEACH

The entire beach was again bulldozed and regraded at the start of the season. A full-time attendant was again employed at the beach and through his effort and the

cooperation of the weather, the beach remained in excellent condition throughout the summer. Parking at the beach has become a problem on weekends and thought must be given in the immediate future to the development of additional parking facilities. The disposal of household trash and garbage in the containers at the beach remains a problem. Your Town Council has been requested to enact an ordinance prohibiting this.

Respectfully submitted,

WILLIAM MORRIS, Chairman
LEON FRENCH, JR.
ALAN BRACKETT
GEORGE ELDRIDGE
EDWARD GODFREY

REPORT OF THE HEALTH OFFICER

Town Council

Kittery, Maine

I herewith submit my annual report as Health Officer for the Town of Kittery for the year 1968.

All sanitary conditions reported were investigated and remedied.

A very unusual amount of contagious diseases were taken care of, as follows:

German measles	3
Chicken pox	206
Mumps	86
Impetigo	3
Strep throat	4
Measles	1
Conjunctivitis	3
Pneumonia	1
Head lice	2

Many cases of influenza probably were not reported. Several hundred school slips were given out free of charge.

Respectfully submitted,

C. W. KINGHORN, M. D.
Health Officer

Kittery School Department: 1968-69

School Committee: Ernest Maby, Chairman
 Daniel Durgin Robert Johnson
 Dr. Joseph Gravalles Dr. Paul Taylor

Superintendent of Schools: Bernard C. Forbush

 April 11 Schools Close (Spring Recess)
 April 21 Classes Resume
 May 30 Memorial Day (Schools Closed)
 June 13 Schools Close for Summer Vacation

NO SCHOOL ANNOUNCEMENTS

Announcements of no school because of stormy days or other reasons will be made over two radio stations only. The first announcement will be from WBBX in Portsmouth. WHEB, which does not go on the air during the winter months until 7:15 A. M., will make the announcement after that time. WBBX is 1380 on your radio dial and WHEB is 750 on your radio dial.

On days when schools are to be closed because of stormy weather or other reasons, the fire sirens will sound one long blast at 6:30 A. M.

When school is being closed for the afternoon session of Kindergarten only, the fire sirens will sound one long blast at 11:00 A. M.

There is no signal to indicate the closing of all grades for the afternoon session. When it seems necessary to close all schools for the afternoon session, announcements will be made over the radio stations.

Please do not call your school officials to inquire about the closing of school in the morning, as this may prevent them from using their phone to complete the many calls that are necessary to the closing of school.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

WHERE IS THE KITTERY SCHOOL SYSTEM HEADED?

Introduction

The sustained effort for the advancement of the Kittery Public Schools has continuously revealed itself as two interdependent movements, one representing the financial support of the progress and the other representing the nature of that progress.

As American society advanced into highly technological state, with specialization of occupations as a natural concomitant, the home relinquished its diversity of effort and the schools in town began to expand and extend their programs to make room for those displaced services. To what this expansion of the schools both horizontally and vertically has represented a mandate of our society, and to what extent it has reflected the eagerness of an alert teaching profession to take over a bankrupt stock, has never been determined.

Exactly what should have been included in the school program and what should have been left out, regardless of society's inability to handle these matters in the home or elsewhere in the community, will never be completely agreed upon. In fact, it continues to furnish the state and local community the foods for controversy. As one state legislature or local committee of education enthusiastically provides funds for this or that facet of the educational program, another will follow just as enthusiastically with an investigation of the same offering. Although at times a bit disconcerting to school administration, there is something mighty wholesome about these honest differences of opinion.

When somebody speaks out against the schools or criticizes, our first inclination is to criticize the criticism, as though education possesses an immunity to inspection. Far better is it for us to know (1) what are we doing, (2) why are we doing it, and (3) that it is better than something else we might be doing, than for us to rush to the defense of our program as though it were a citadel sacred only to the keepers.

At any grade level, the educational diet that demands the labor of concentrated chewing will stay with

a person longer than that which has been watered down to a point of asking nothing of the consumer but to swallow. It is time that America has asked that we educate all American youth, but we must always distinguish between education and mere attendance.

As we strive to reach the goal of educating the whole youth of Kittery, so we must in time bring more specialized teachers into the system and they in turn will demand more and varied materials to accomplish their respective jobs. As our schools advance in their ability to educate so must the budget. Operational costs must go up mainly because of five factors:

1. The increase in population.
2. The trend to educate an increasing percentage of the population and for a longer period of time.
3. The up-grading in the standards of teaching.
4. The increasing cost of living.
5. The addition of special school services.

With the basic thoughts mentioned above firmly in mind, the main purpose of this monogram is to present the questions facing the future of the public schools of Kittery and in turn to transform these into a long range program as a guide to the type of education we want our youth to obtain and a financial plan to make the goal obtainable.

Some of the basic issues effecting the course of our schools are:

1. What do we mean by education? Is training the same thing?
2. What should be the roles of the teacher?
3. Should the public schools be concerned with all that we mean by education?
4. If the school has a number of purposes, should these be given equal emphasis in the classroom or in the total curriculum?
5. With reference to all that students learn in school, what constitutes the curriculum?
6. What are the standards in the schools? Where do they come from?
7. Should standards be the same things as grades or course objectives?
8. Should student achievement be evaluated in relation to fixed standards or in relation to individual progress goals?

9. Should the educational needs of all the children and youth in Kittery have equal weight in shaping school policies and offerings?
10. To what extent should the curriculum emphasize the "here and now"?
11. What criteria should we establish for selecting subject matter?
12. Should the schools of Kittery provide curriculum opportunities for the "all-round" educational growth of the boys and girls? If not, what kind of learning experience should be excluded?
13. What are the educational opportunities in our schools outside of the formal curriculum? Are the objectives of these activities as important as those governing the formal curriculum?
14. What changes, if any, should be made in our philosophy to meet the rapidly changing school society?
15. What are the long-range plans for the curriculum of the Kittery Schools?
16. What plans should we adopt to make sure physical plants, equipment, and supplies are readily available when the need arises?

LONG RANGE PLAN

An exact definition of the word "education" is next to impossible because of the evolving nature of knowledge and the ever new demands that advancing science and technology make upon modern man. Therefore, it takes on some of the aspects of Einstein's Theory of Relativity, that is to say education is relative to time and place. However, the central task of the schools is to equip individuals for effective life-long learning. The school leaders must continually evaluate and adjust to changing needs. This cannot be mis-interpreted to mean that we will follow the whims of society, but that we must anticipate needs and be willing to take a stand in regard to needed change. It can be achieved only by a careful nurturing of the child's natural impulses to understand himself and the world around him, and the gradual transformation of these impulses into a series of searches for meaning pursued at higher and higher levels with steadily increasing independence.

We have talked a lot in the past about individual differences, and individualized instruction, but practices in our schools have remained very largely group instruction practices. The old stereotype "class" and "grade" die hard. Although we know it is the individual who learns, we continue to teach the class and to expect the individual to adapt himself to the proper rut. The problem of pacing is only slightly alleviated by ability groupings, because the range of differences in modes of learning, in readiness to learn a particular thing at a given time, varies enormously within any group that can be created.

The above idea of what the job of our schools is may seem rather nebulous, however, any definition of a more restrictive nature would result in a status quo which would spell suicide of our country.

The remainder of this paper shall be devoted to the overall plan of developing and maintaining a school system in Kittery that will fulfill the needs for the next few years. It is our intent not to imply the importance of one phase above another, but for the sake of simplicity and clarity, we shall take up the following phases separately:

1. The teacher and administration.
2. The student.
3. The curriculum.
4. The physical plant and equipment.

The Teacher

Generally, to speak of the schools is to conjure up in the public's mind the image of a building. It would be closer to the truth were the word school to bring to mind the picture of the teacher. The teacher makes the school. The teacher-learning situation is centered in a warm human relationship.

The teacher is the key to everything else. If we introduce machine operations, it is to reduce the teacher's clerical duties or to free dollars to buy teaching service. If we experiment with teaching by television, it is to find ways to make master teachers more effective. If we revise our course outline, by new textbooks, or by providing testing service, or employ attendance workers, it is only to aid the teacher in the job of teaching. All of this is to provide more for our young people in educational

opportunity. In this sense, the teacher also is a means to an end, but a human means for the most human of purposes, the development of young people.

We in Kittery should continue our practice of providing teachers who help students develop their abilities and desire to learn, who are enthusiastic, patient, curious and tolerant, who are able to think critically and help others develop that capacity, who have the ability to grow intellectually, who are dedicated to teaching, who motivate children to think and to learn, and who know fully the subject matter they are to teach.

To accomplish this goal we must maintain a harmonious atmosphere within the school system, and we must strive to, first of all, place our salary schedule on a competitive basis and secondly keep it high to attract the best of teachers available.

At Kittery's present growth, we may expect the need of one additional teacher per year for the next few years.

Although many teachers presently employed in Kittery are more than fulfilling their obligations towards professional advancement, we should make plans to encourage more of our staff, not only to fulfill their requirements but work towards advanced degrees and in a field within the realm of their teaching in Kittery.

Industry noted years ago that the day of the Jack-of-all-trades had outlived its usefulness. Somewhere, we in education missed the boat and are still insisting that our teachers in the elementary school teach all discipline to their groups. As we all know, teachers excel in one discipline and shy away from areas in which they feel inadequate. Actually, this has not been an outstanding problem in the past because most children were exposed to a number of teachers with many interests. However, in the new day of technical and social advancement, we can no longer afford to allow the child's complete development to chance. We must in the future seek out teachers with outstanding abilities in specific fields and allow them to work only in this field, (this particular report will be dealt with more deeply under curriculum) or have the services of a subject supervisor for teachers.

All teachers within the system should have the opportunity to observe both the horizontal and vertical aspects of the curriculum. This will tend, not only to improve methods within a given grade level, but give teach-

ers a better understanding of the work and problems of other levels, and to insure better coordination of effort in determining and presenting the specific goals on each level, the evaluation of the continuity of the program, identifying and discussing the weaknesses over the grades, and thus qualifying themselves as co-workers in curriculum construction and improvement.

The Student

Much has been learned over the years through psychology, sociology, anthropology, and related sciences pertaining to the child's general growth patterns, and acquisition of knowledge. Just to sight a few finds that should be seriously considered with respect to the knowledge the teacher should possess and the ideas that should be considered when developing a curriculum, we might point to the following: physically an average girl is at least a year older in maturity when she enters school and retains this lead well into adolescence. Boys and girls assimilate academic materials in varying ways. Students interests vary from one age level to another, and these are known but seldom put to use. As most elementary schools are now operated, the girl has a distinct advantage over the boy. Female teachers, through no fault of their own, impose the female approach to learning, however, on the other hand, male teachers find it difficult to adapt to primary teaching.

The student, in most cases, looks up to and imitates the parents. This is as it should be, but the parent must be taught to set the standards that are in agreement with best learning ideas in order that the student be more receptive to academic work. Therein lies the problem, for the student must be the object of a joint venture of both the parent and teacher. There is much the parent can and must be willing to do to see that his child can get the most out of education. By the same token the teacher must be willing to develop a close working relationship with the parent.

Of primary importance is the fact that our children and youth are growing up in a world that differs radically from that of the past. The difference lies partly in the tremendous expansion in knowledge during recent years and the marvelous technological developments which are

changing the ways of man everywhere. It has also resulted in the increased necessity for vigorous effort if, as a nation, we are to maintain our status and leadership in the emergency strategy of peace as contrasted with the strategy of war, and also in the urgent need of preserving and improving the way of life, as a people, we cherish.

As a result of these and other significant developments, children and youth face strong societal pressures to learn more broadly and thoroughly than formerly and for longer periods of time. In response to the new and challenging needs which are emerging, education is taking on a new seriousness of purpose. The hope of individual welfare and social progress in the future lies in a higher quality of educational processes and product.

The Curriculum

Can the curriculum be designed to reflect all we know and still have to find out about the learning process? Only to the extent that we are clear about the goals of education can we devise satisfying school programs. New ideas and experiments would be needed in the decade ahead. For education is a creative process in which principles that have served their day expire and new principles are born. The curriculum in Kittery has changed radically from what it was prior to World War II.

Changes in the future should reflect all we know about the teaching-learning processes. These changes should involve not only the administrative staff, but teachers, parents and professional help from any source available. It should make sure that the adoption of new materials be timely, that is to say we must plan the materials within the program at the time they pose greatest amount of receptiveness from the student. Materials should be added or deleted from the program merely on merit of their worth. Perhaps the most thought provoking aspect is the deletion of materials from the program that merely add to the already over-whelming array of factual statements (rote memory) in favor of materials that will cause the student to think. Critical thinking is an art that is foreign to far too many students today. The mere fact that Johnny can parrot back factual statements is not a sign that he is being given the tools for effective further learning and effective living. Our program today, and in the future,

must be devised to cause Johnny to weigh and assimilate many ideas into solutions for problems of his own.

All grades should be fully equipped with the various audio-visual aids such as motion picture projectors, slide projectors, record players, tape recorders, T. V. mock-ups, working models, and other apparatus that will help bridge the gap between the concrete and the abstract. Care should be exercised in the sequence of purchase and the type and service on all equipment. At the present time it would be contrary to the best interest of teaching to purchase teaching machines, for the programming, which is the key to this device, is not developed to a desirable degree. That is to say that as the program is now set up it calls for one and only one correct answer to a problem and as we are all well aware, most problems can yield more than a single correct solution. Furthermore, such a program, if gone to extreme, would produce a group of children as much alike as peas in a pod.

Our present system of text books and equipment purchasing should definitely be continued, but the plan should allow for the purchase of additional equipment so that our educational system becomes dynamic rather than remain static.

The upper grades should continue to be involved in the departmental system with emphasis on the factor that all teachers work only within their major field.

We should be looking towards a curriculum change that would possibly call for a change in entrance age of children into the primary unit, a change from broad field subject content in the primary unit to essential tool subjects at this level with other subjects entering the scene at a later date, and more emphasis on areas that are of real problems to the child at whatever level we may find him. As mentioned above, the ungraded primary unit has possibilities of alienating the existing problem build-up at the Junior High level. The program should also be broadened in scope to include more than the confines of the classroom as an educational setting. Because of the stepped-up pace the society is placing on our children, the program should include more of the cultural and dexterous fields.

Needless to say, this program should be worked out in close harmony with the High School for any change we make will have a profound influence on the future of

their programs. For instance, the adoption of modern mathematics here would in turn affect the entire math department at the high school.

The Physical Plant and Equipment

Rather than go into a long discourse as to plant needs at this time, an outline should give a good clear picture.

A. Maintenance:

1. All buildings are in a poor state of repairs.
2. Money for repairs should be made available before many of these maintenance needs become major repair projects costing a prohibitive amount.

B. Buildings:

1. There is a need currently of three elementary classrooms, one special education room, four high school general purpose classrooms, additional shop facilities at the high school, shop and home economic facilities at the junior high school, and improved hot lunch facilities in all schools save Kittery Point school.

C. Approaches to Building Problems:

1. Remain as an independent school district and plan as a town.
2. Join with another school district and form a S. A. D. (School Administrative District) and plan building needs jointly.
3. Plan for greater use of existing facilities through year use of buildings for instructional purposes.

It would be fool-hardy to give exact dates or sequences for any of the above recommendations without a number of School Committee, Administrative, and Teacher meetings. The actual working of this plan calls for the active cooperation of all concerned.

Sincerely,
Bernard C. Forbush
Superintendent

R. W. TRAIPI ACADEMY**ANNUAL REPORT FOR 1963**

Improvements and Adoptions of Traip Academy during the past year:

1. There has been considerable work done on curriculum improvements involving English, Social Studies, Science, and Reading. In English the emphasis has been on revising the educational philosophy supporting our Track III groups, up-dating reading lists, and textbook adoptions. We have also changed our thinking so that no student is almost automatically forced into a fifth year by failing one English course. The Social Studies department had prepared a revised curriculum which has been submitted for approval. It would, among other things, provide for more semester electives and more pertinent control for freshmen and seniors. The Science department had worked out plans for a more participatory approach to freshmen science. The reading program has, through adoption of newer techniques, increased its availability from about 45 semi-reluctant students to 60 who have requested the course. Social Studies has introduced a new concept through a semester course in Comparative Political Systems. In this course, emphasis is placed on the methods of historical study rather than factual data alone. Home Economics has added a course, Senior Special, for College Preparatory girls who have not had an opportunity for any study in this field.

2. Scheduling techniques have been improved so that all English classes of each grade level meet at the same time. This makes student assignment adjustments completely unhampered. Also, Freshman Track I science classes, as well as Biology classes, have had additional periods per week allotted to provide more lab experience.

3. New Equipment has made it possible to strengthen the gymnastics aspect of Physical Education for all students. We also were able to obtain new curtains and vastly superior lighting equipment to enhance our dramatics presentations.

4. Last summer, a cooperative program with York High School has enabled us to improve our Summer School

program. We and York will alternately offer summer school which should make each school's summer program broader and thereby able to serve more students.

5. Our Dollars-for-Scholars program, started last spring, raised approximately \$3000 to help our graduates go on to college. There was ten students who received from \$200 to \$500 through this program.

6. In athletics, we have expanded the program to provide for a full JV team for girls' basketball, a full game schedule for girls' softball, schedules for JV and Freshman football, full schedule for baseball and wrestling. And, of course, athletically, our top achievement of the past year was the state Class L basketball championship.

7. In student relations, we have adopted the principle of some senior privileges including early dismissal from end-of-the-day study periods. This has done much to improve student morale.

Principal

FRANK C. FRISBEE SCHOOL**ANNUAL REPORT FOR 1968**

Grouping for instruction at the sixth grade level, Art instruction at junior high level, and the completion of our Health and Physical Education program which provides instruction for boys and instruction for girls are highlights of educational progress during this past year at Frisbee School.

Grade six groupings for instruction is accomplished through a semi-departmentalized procedure. Each student is considered for placement in the Language Arts and in Science and Mathematics. In addition to providing an effective and flexible devise for groupings for instruction, this provides a transitional function that makes an easier change from grade six to the departmentalized junior high school. This program has proven to be effective, but will continue to receive constant study for ways to improve it.

Art instruction at the junior high school level provides two periods of Art instruction for each student for one semester each year in grades seven and eight.

A much needed instructional improvement was realized when we were able to offer two periods of Health and two periods of Physical Education per week, with separate instruction for boys and girls. Prior to this, both boys and girls received Physical Education in the same class and Health was a unit of instruction in the Science program.

The recent addition of an Elementary Guidance Counselor brings about another much needed improvement in the basic services which are necessary to provide good quality of education for boys and girls. We have already seen evidence of the value of this man in our individual testing program at the elementary grade level and the individual counseling at the junior high level.

The library at Frisbee School continues to show excellent growth. What once amounted to a corner of a classroom with a few old, unattractive books which received little use, now amounts to a large, attractively decorated room with more than 8000 books representing the

many categories of books necessary to a good functional library as well as audio-visual equipment with films, records and necessary supplies for the individual student to pursue general interests or academic research. The library provides services and instruction for all students from Kindergarten through grade eight. The daily circulation of books is over 180 books per day.

Public speaking, Science Fairs, Field Trips, participation in the Oceanography program at R.A.M.P., School newspaper, Dramatics, Band, Glee Club and Assemblies presented by outstanding resource people have provided many of the needs of the junior high school students that cannot be met in the regular classroom atmosphere.

Good educational programs do not "just happen", and what is a good program today can rapidly become a less than acceptable program if we do not maintain standards and look to the needs of the immediate future. Therefore, it is seriously recommended that positive consideration be given to the following proposals, many of which are reflected in the recently submitted budget.

Additional audio-visual equipment is needed to continue presenting the many new educational media that are available. A definite need exists to replace some of the old equipment which is subject to constant malfunction and does not merit the expensive repairs necessary to maintain a minimally functional status.

If we are to provide the full-course Science program that we have the potential to offer, it is necessary to consider the renovation of a minimum of two classrooms to Science laboratory facilities.

The co-curricular offering of a complete intramural-interscholastic program for junior high school are recommended as an immediate necessity. The piece-meal hit-or-miss procedures of the past which had to be followed because of lack of financial resources cannot and does not provide for the needs of boys and girls. It is sincerely hoped that the proposed program and budget to implement it will be given serious and favorable consideration.

With an eye to the near future, we should be considering the addition of Industrial Arts and Homemaking courses at the junior high school level. This will require

additional space for such facilities and staff. Our present program shows that we have eight classrooms at elementary level that exceed the recommended teacher-pupil ratio. The unfavorable trend in the past few years has been to increase the teacher-pupil ratio at junior high school level. As we address our efforts to future improvement, it is recommended that the teacher-pupil load at junior-high school level be given prime consideration.

In conclusion I wish to point to the fact that the accomplishments which highlight the past school year represent team work on the part of teachers and administration. The Frisbee School staff and I wish to express our thanks to Mr. Bernard C. Forbush, Superintendent of Schools, Mr. Carl Wood, Assistant Superintendent, and the members of the School Committee for the leadership and initiative that have helped to make a complete team effort for the good of the children of Kittery, and we look forward to continued team work in the future.

Clinton W. Phinney
Principal

H. MITCHELL AND KITTERY POINT ELEMENTARY**SCHOOLS ANNUAL REPORT FOR 1968**

Our faculty, in the two above schools, consists of 14 full time teachers, two teacher aides, beside the Art Supervisor, Vocal Music Supervisor, Instrumental Teacher, Speech Therapist, Elementary Guidance Supervisor, Librarian Aide, and School Nurse.

We were very fortunate in September to have only three new teachers on our staff, two of whom had previously taught in Kittery.

The citizens of Kittery should be very proud of the success of the Special Education Class for the Retarded that was started when the new building was opened two years ago. With the regular teacher and a full time teacher aide, the pupils work in small groups with almost individual attention. The cooking classes and crafts program mean so much to these children. I wish more citizens would visit us and see these children at work.

Our need at the new building is the completion of the kitchen so the primary grade children do not have to come down to the lunchroom in the old building regardless of weather.

The old building, the Mitchell School, houses grades two through five. Both grades four and five are, and have been, overcrowded for the entire year, exceeding the state recommendation of a ratio of 30 to 1.

Our greatest need at this building is a full-time custodian, none has been available since September. We also need a room to be used for Audio-Visual classes and a library. We have a good collection of about 2400 library books and reference books for use in these grades. These are now kept on mobile carts in the corridors. I do not feel that we are making the best use of our books under the above conditions.

A great deal of yard work, grading and fill is needed around both buildings. A baseball diamond could be a big asset in this part of town.

Sadie M. Dearborn
Principal

SHAPLEIGH SCHOOL**ANNUAL REPORT FOR 1968**

The past school year has been a year of continued growth at Shapleigh School. The children at Shapleigh School have had the good fortune of a minimal turnover in the teaching staff the past school year thus assuring the children of experienced teaching. This, along with an up-to-date curriculum and reasonable pupil-teacher ratio, is in the opinion of most educators the most important factor in assuring quality education for our youth.

The children at Shapleigh School have also benefited from an active P. T. A. which has continued to help assure the close relationship between parents and teachers of Shapleigh School.

A teacher aide at Shapleigh School has helped teachers to spend more time on instruction within the classroom. The day is upon us now when more individual instruction must replace mass instruction of children if youth is to keep pace with today's fast moving society.

The hot lunch program has continued to operate well at Shapleigh School which is reflected in the number of children who participate daily in the program. In the past year, Mrs. Pierce has administered this program very efficiently.

Space is rapidly becoming a problem at Shapleigh School. Our library is outgrowing its location on the stage in the cafeteria. Group band instruction, speech classes, guidance counseling, individual testings, and other activities are now being held on the stage and in the teacher's room. At the present time, nine of the thirteen classes at Shapleigh School are above the desired maximum of twenty-five pupils per teacher. The remaining four classes are at the twenty-five pupil figure or within one or two pupils of that figure.

In conclusion, I would like to take this opportunity to thank the School Committee, Mr. Forbush, our Superintendent, and Mr. Wood, our Assistant Superintendent, for their support and help in working with all the Shapleigh School personnel.

James W. Doble
Principal

WENTWORTH-DENNETT SCHOOL**ANNUAL REPORT FOR 1968**

The 1968-69 school year started with an increased enrollment over that of the previous year due to an added session of Kindergarten pupils. The teacher replacement was two with only one being new to the Kittery School System.

We are fortunate this year in having a full time Teacher Aide to assist teachers with non-instructional duties. A Library Aide visits the school bi-weekly to assist in cataloguing and filing books and performing others tasks necessary in providing a more efficient library service.

There are presently eleven students receiving speech therapy from a Portsmouth Rehabilitation Center therapist who visits the school once a week.

Over 75% of the children who remain at school during lunch period avail themselves of the excellent hot lunch program.

Various degrees of maintenance was completed during the past year with major projects being repairs to the cornice and retiling the basement Kindergarten room.

The school enrollment has increased substantially in the fourth and fifth grades which makes for overcrowded classrooms. Space for a central library and storage for audio-visual equipment is an immediate need.

The cooperation of school personnel, school officials and parents has been greatly appreciated.

Alice Tobey
Principal

KITTERY CONSOLIDATED LUNCH PROGRAM**ANNUAL REPORT FOR 1968**

Over the past year there has been some changes in the Kittery School Lunch Program. From September to November, 1968, each elementary school lunch program was operated independently, each having a manager to make out menus, do all the book work, and buying. Two schools were in the black financially while the remaining two were in the red.

In November, 1968, it was decided to consolidate the four independent programs on a trial basis with a standard menu for all under the direction of one person doing the book work, reports, menu, buying, and pay roll. The decision to consolidate was made to see if we could operate at a lower cost and at a greater advantage to the parents by having one menu for all schools sent home each month. Each month's menu lists "Class A" lunches which consists of $\frac{1}{3}$ of the child's daily requirements which are: 2 oz. of protein, $\frac{3}{4}$ cup of fruit or vegetable, bread, butter, and $\frac{1}{2}$ pint of milk.

At the present time the new system is working fine with the help of the cook managers and their assistants: Mrs. Priscilla Karkos of Mitchell School, Mrs. Evelyn Pierce of Shapleigh School, Mrs. Dorothy Ferguson of Wentworth-Dennett School, and Mrs. Etta Gaffney of Frisbee School.

Monies for the program are obtained from the following sources: thirty cents by each child for his lunch, four and one half cents received from the United States Department of Agriculture, and about Eight cents worth of commodities for all childrens' lunches. Adults pay fifty cents for their lunches as we do not receive any subsidy from the U. S. Department of Agriculture on adult meals. We also receive \$3,112.00 from the Town of Kittery which is used for small equipment, gas, and assistance with the cost of food and labor.

As you all know, with the rising cost of food and labor, we are running pretty close. An average meal costs about forty-three cents for food, labor, paper products, equipment, and the cleaning materials.

The income for the lunch program is approximately \$50,000 a year, with expenditures of about the same. The average number of lunches served in the Kittery Elementary Schools each day is 910; 850 are paid students, 23 adults, and 37 free lunches.

We hope our consolidated lunch program will continue to be a success, and benefit the children of the community.

Mrs. Dorothy Chase
Hot Lunch Director

ASSESSOR'S NOTICE

The Assessor of the Municipality of KITTERY hereby gives notice to the inhabitants of said Municipality that he will be in session at

Assessor's Office, Municipal Building
52 Government Street

in said Municipality on 1, 3, 7, 9, 10, 14, 16, 21, 23, 24, 28 and 30th of April, at 9 A. M. to Noon and 2:00 PM to 5 PM for the purpose of receiving lists of the polls and estates taxable in said municipality.

All such persons are hereby notified to make and bring to said Assessor true and perfect lists of their polls and all their estates, real and personal, not by law exempt from taxation, which they were possessed of, or which they held as guardian, executor, administrator, trustee or otherwise on the first day of April, 1969, and be prepared to make oath to the truth of the same.

When estates of persons deceased have been divided during the past year, or have changed hands from any cause, the executor, administrator, or other persons interested, are hereby warned to give notice of such change, and in default of such notice will be held under the law to pay the tax assessed although such estate has been wholly distributed and paid over.

Any person who neglects to comply with this notice will be DOOMED to a tax according to the laws of the State, and be barred of the right to make application to the Assessor or Board of Assessment Review for any abatement of his taxes, unless he offers such lists with his application and satisfies them that he was unable to offer it at the time hereby appointed.

Charles A. Tetreau
Assessor

Date Posted March 4, 1969
